Muhammedmishab369@gmail.com

As a comprehensive development package, capable of transforming ideas into fully deployed solutions, handling every step from conceptualization to deployment. Let's collaborate to turn your vision into reality!

EXPERIENCE

LevelX   Calicut
Mern Stack Developer
July 2023 – Present

Responsible for building the user-facing side of web applications using technologies like React.js. Work on the server-side logic of web applications using Node.js and Express.js. Manage application data with MongoDB, a NoSQL database. Design and develop RESTful or GraphQL APIs to facilitate communication between frontend and backend components. Write unit tests, integration tests, and end-to-end tests to ensure code reliability and stability. Collaborate with other team members, including designers, product managers, and developers, to understand requirements, discuss technical solutions, and coordinate development efforts. Stay updated with the latest trends and best practices in web development.

WeeTech Solutions   Chennai
Junior Developer
September 2022 – May 2023

Responsible for building the user-facing side of web applications using technologies like React.js.

TECHNOLOGY

Web Technology - *React.js ,Express.js, MongoDb, Nodejs, Agile Methology, Git, GitHub, Tailwind, Firebase, BootStrap, Figma, Oops , Socket.io ,Redux , Python ,Postman ,Redux , MoonModeler And Web Development and Deployment .*

PROJECTS

Progress Tracker — A Web Application That Tracks In Your Daily Life Activities.

Track daily life activities with ease. Features include timely reminders and notifications to log progress or achieve milestones. Define goals in areas such as health, fitness, career, education, and personal development. Set clear and achievable goals across various aspects of life. Stay updated with real-time notifications regarding goals and activities. Enjoy an intuitive and user-friendly interface for easy navigation and interaction. Customize milestones based on preferences and requirements. Visualize progress over time through charts or

Event Mangement web App — A Web Application For photos and videos enables users to create and manage events.

An Event Management web app for sharing photos and videos allows users to create and manage events while enabling attendees to upload and share multimedia content. Features typically include event creation, invitations, RSVP tracking, and a central gallery where participants can view and interact with shared photos and videos. This platform enhances event engagement and preserves memories by providing a user-friendly interface for multimedia sharing and social interaction.

Project–Posguru — Inventory management, sales tracking, customer relationship management, and real-time reporting to enhance business efficiency and customer service

Specialized software designed to manage various aspects of a restaurant's operations, including order taking, inventory management, table management, payment processing, and sometimes even employee scheduling. This product-based project helps restaurants manage and store their data effectively. The role involved creating a user-friendly and responsive UI that clients can use with ease.

MINI PROJECTS

SPIN CONTEST— A Web Application by selecting random winners in an Event.

Developed a React.js application with dynamic data loading and state management using useState and useEffect. Features Implemented start/stop functionality with logic for determining contest winners using Math.random.

RESPONSIVE USER INTERFACE

Responsive user interface adapts seamlessly to different screen sizes and devices, ensuring optimal user experience and accessibility across desktops, tablets, and smartphones. This approach prioritizes fluid layouts, flexible images, and adjustable content to deliver a consistent and user-friendly interaction regardless of the device used.

EDUCATION

UNIVERSITY OF MADRAS, Chennai— *Bachelor's Degree in Computer Science*

June 2017 - July 2020

SOFT SKILLS

**Adaptability,
Leadership Quality,
Decision Making Good,
Communication Skill**

CERTIFICATES

Visual Graphics in C

Excel for Beginners

Machine Learning

Make.com Level 1 - Foundation
